

AUDIOLOGIST for Health PEI

*Prince Edward Island
The place that enriches your family, your career, your life.
Come live island style.*

This is *your* opportunity to provide frontline audiology services in a provincial program. You will be the sole professional providing a clinical oversight role to this area of service provision. Health PEI requires your knowledge and abilities in a board range of assessment techniques and treatment suggestions for a broad range of auditory disorders. You will offer your expert advice on hearing matters in other parts of Health PEI.

QUALIFICATIONS

- Master's Degree in Audiology and be eligible for membership with the Speech-Language and Audiology Canada and/or the Canadian Academy of Audiology and the Prince Edward Island Speech and Hearing Association.
- Clinical experience working with children, youth and adults.
- Clinical experience providing direction, clinical supervision and support the role of an Audiology Assistant.
-
