

Are you looking for an exciting new challenge? Do you want to make a difference in the hearing healthcare industry? Are you a great communicator who can teach and train complex information? Consider the Field Audiologist position in Mississauga available at Starkey. As a Field Audiologist, you are responsible for supporting sales objectives by providing training and support to customers and staff on Starkey software and hearing technologies. This position also requires advanced audiology customer support in patient hearing aid fittings and participation in customer events such as open houses and trade shows.

Our Culture:

- An experienced team built around a culture of professional growth and knowledge-sharing
- Innovative experts who have an open mind and strive to get better every day
- Excellent starting salary and benefits package, and company paid continuing education

You Will:

- Participate, collaborate, and lead programs for internal and external education and training
- Schedule appointments with new and existing accounts, including hospital audiologists, private practice audiologists and hearing instrument professionals
- Conduct classes, demonstrations and workshops when requested.
- Create education and training materials including presentations, handouts, and other related materials
- Submit and participate in presentations for local and national conferences
- Participate in clinical activities throughout the year and participate in validation and evidence based research as necessary.
- Fit clients and trouble shoot fittings, provide technical assistance, answer questions from hearing health professionals and provide recommendations as requested
- Remain current on products and fitting techniques through training on new products and techniques
- Participate in clinical days at Starkey Canada facility
- Participate in incoming/outgoing Audiology Support calls
- Participate or host webinars

You Will Need:

- Education: Doctoral or Master's Degree in Audiology preferred
- Minimum 1 year experience working in a hearing aid manufacturing environment and or hearing aid dispensing location
- Computer literacy
- Excellent written and verbal communication skills
- Excellent presentation and interpersonal skills
- Strong time management and organizational skills
- Excellent problem solving and troubleshooting skills
- Ability to function within a team environment
- Ability to work and travel independently

Transforming the hearing care industry

Starkey Hearing Technologies is a recognized world leader in high quality audio technology. We serve our customers by providing a broad range of hearing devices that meet a variety of hearing needs. Through unsurpassed customer service practices, we strive to bring a human touch to hearing healthcare.

We are recognized for the innovative design, development and distribution of comprehensive digital hearing systems. More importantly, Hearing is Our Concern. It's why we exist and why we strive for industry-best service levels. We give the gift of hearing every day through our connection with the Starkey Hearing Foundation and through our work on a corporate level. Starkey Hearing Technologies operates 21 facilities and conducts business in more than 100 markets worldwide. We develop, manufacture and distribute hearing aids via four distinct brands - Audibel, NuEar, MicroTech and our original brand, Starkey.

Starkey Hearing Technologies is an Equal Opportunity Employer.
