THN Hearing and Balance Centre is a new multi-disciplinary clinic located in Forest Hill, Toronto.

We have a large team of otolaryngologists and hearing and balance specialists who providing are committed to the best medical care for our patients.

We do not simply diagnose problems.

We aim to offer the highest quality rehabilitation for patients who suffer from hearing loss, dizziness and tinnitus.

We service a large pediatric population, with one of the largest outpatient pediatrics practices in Toronto in our building.

We also have a robust population of seniors in the area.

We are seeking a full time clinical/dispensing audiologist to start immediately.

Requirements:

- Master's Degree in Audiology or equivalent.
- CASLPO registered.
- Experience with diagnostic and rehabilitative audiology services (audiogram, EcOG, ABR and VEMP testing). Ability to perform VNG is an asset, but not essential.
- Experience with hearing aid dispensing and verification.
- Experience working with pediatrics,
