

Since 2011, Omni Hearing has taken a back-to-basics, more client-oriented approach to hearing care service provision. We have reapplied a traditional health services model in order to offer all of our customers and clients a friendly, compassionate and hassle-free style of care. Our business model has been specifically adapted to meet the needs of modern, busy and professional customers.

What We Are Looking For:

A dispensing audiologist with effective communication skills to work between 16-24 hours a week in a new, fast paced medical building on the border of Mississauga and Oakville. Occasional evening and weekend shifts will be requested. This position has room for growth.

What Candidates Will Be Hired To Do:

Perform audiological assessments & hearing aid evaluations with **no pressure from management to convert!**, hearing aid fittings, troubleshooting / cleaning / repairing hearing devices, real ear measurements, creating physician correspondence letters, counselling hearing aid users on device usage / maintenance, modifying hearing devices / earmoulds, taking earmould impressions, basic administrative duties i.e. answering telephone, scheduling follow-up appointments, and completion of application forms.

What We Would Like To See From Candidates:

- Masters Degree in Audiology or Equivalent
- Registration with CASLPO
- Registration with Ministry of Health as an authorizer for hearing devices
- Experience dispensing hearing devices not a must but will be strongly considered
- Ability to maintain productivity in a fast paced medical environment
- Multilingual

Please send resumes and online CV (if applicable) to
