

**Who we are:**

Established over 25 years ago, Medcan is a global leader in assessing clients' overall well-being and inspiring them to live well. Medcan has a comprehensive range of diagnostic assessments, which, in combination with innovative programs tailored to specific needs, are designed to successfully reach improved health outcomes. Over 65 physicians and specialists, alongside a broad roster of complementary health care disciplines, provide health and lifestyle management services on site and by video consult for individuals, families and organizations. Our team of 350 staff sees clients physically and virtually from our downtown Toronto location.

**The role:**

Medcan is recruiting for an experienced Audiologist that can start immediately to join our high performance clinical team.

As we partner to continue to grow our in-house Audiology clinic, the Audiologist will be providing assessments for the corporate sector and other Audiology services to our clients. We are looking for a business partner who is interested in the formation of a "Best in Breed" clinic with a superior focus on client service. This opportunity is best suited to an Audiologist who is entrepreneurial in nature.

The role includes operations, client service and delivery of clinical services. The specific task accountabilities of this position include but are not limited to:

- Testing, evaluation and treatment of hearing difficulties and the provision of appropriate screening programs
- Selecting, conducting and interpreting appropriate hearing tests
- Analyzing hearing tests in conjunction with medical, behavioral and educational information
- Making appropriate recommendations for follow-up and providing individual, family, and group counseling regarding hearing loss and the implementation and likely outcomes of proposed treatment modalities
- Addressing any client issues that may originate from the consultations
- Comprehensive audiological and amplification services to adult clients
- Counseling and education for clients with hearing loss and treatment options
- Hearing aid and FM dispensing
- Hearing aid verification, follow-ups, cleaning and repairs
- Training medical testers and other staff to do repairs and basic maintenance of hearing devices
- Monitor and facilitate the flow of patients through the Clinic
- Coordinate with other clinic staff to ensure exceptional delivery of service

**The Requirements:**

- Master's or Doctorate's degree in Audiology
- Current registration with the College of Audiologists and Speech-Language Pathologists of Ontario (CASLPO).
- Current registration with the Assistive Devices Program (ADP) for hearing devices
- Experience in adult audiology including the selection, evaluation and fitting of hearing aids
- Exceptional client service skills
- Experience in pediatric audiology an asset
- Dispensing experience an asset
- Experience with running and growing a clinic an asset

This is an independent contractor role for 3-4 days per week with the opportunity for growth based on our client flow and demand.

The role reports to the Product Director and will be part of a team of outstanding clinicians. Qualified applicants are invited to forward their resume and cover letter to **rogerhan@medcan.com** and **hr@medcan.com**.

The role offers a great work environment, a competitive rate and the opportunity for growth at one of Canada's 50 best managed companies.

We can offer you an excellent work culture and an opportunity to let your excellence shine. In your cover letter please include why you wish to align yourself with Medcan and how you believe you can add value to our organization.

We thank all applicants for their interest; however only those selected for an interview will be contacted. No phone calls and no agencies please.
