Population and public health approaches to hearing care: From epidemiology Big Data to community-based participatory research 18:00 19:00 Opening Ceremonies MONDAY SEPTEMBER 19, 2016 08:15 10:15 Round Table Plenary: Brain Imaging in Audiology, Research and Clinical Practic 10:30 12:00 Poster Session #1 Choose only 1 from 10:45 to 12:15 Featured Session: Hearing loss in childhood: consequences of missing a movir target in brain development Featured Session: Auditory and cognitive aging: From Sounds to Meaning Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured Session: Tinnitus: Ears and brains Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 O8:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicat Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	11:00		Eligibility criteria for hearing aids and cochlear implants: Evidence and policies				
Big Data to community-based participatory research 18:00 19:00 Opening Ceremonies MONDAY SEPTEMBER 19, 2016			How to incorporate screening for cognitive, vision and falls risks into practice				
MONDAY SEPTEMBER 19, 2016 08:15			Population and public health approaches to hearing care: From epidemiology and Big Data to community-based participatory research				
10:15 10:15 Round Table Plenary: Brain Imaging in Audiology, Research and Clinical Practices	18:00	19:00	Opening Ceremonies				
10:30 12:00 Poster Session #1 Choose only 1 from 10:45 to 12:15 Featured Session: Hearing loss in childhood: consequences of missing a movin target in brain development Featured Session: Auditory and cognitive aging: From Sounds to Meaning Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured session: Tinnitus: Ears and brains 13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicat Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation			MONDAY SEPTEMBER 19, 2016				
Choose only 1 from 10:45 to 12:15 Featured Session: Hearing loss in childhood: consequences of missing a movin target in brain development Featured Session: Auditory and cognitive aging: From Sounds to Meaning Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured session: Tinnitus: Ears and brains 13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicated Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	08:15	10:15	Round Table Plenary: Brain Imaging in Audiology, Research and Clinical Practice				
Featured Session: Hearing loss in childhood: consequences of missing a movin target in brain development Featured Session: Auditory and cognitive aging: From Sounds to Meaning Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured session: Tinnitus: Ears and brains 13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicated Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	10:30	12:00	Poster Session #1				
target in brain development Featured Session: Auditory and cognitive aging: From Sounds to Meaning Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured session: Tinnitus: Ears and brains 13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicated Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation			Choose only 1 from 10:45 to 12:15				
Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems Featured session: Tinnitus: Ears and brains 13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicat Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation		12:15	Featured Session: Hearing loss in childhood: consequences of missing a moving target in brain development				
13:30 14:30 Poster Session: Tinnitus: Ears and brains 13:30	10:45		Featured Session: Auditory and cognitive aging: From Sounds to Meaning				
13:00 14:30 Poster Session #2 & #4 Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicate Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation			Featured Session: IERASG: Using Evoked Potentials to Solve Clinical Problems				
Choose only 1 from 13:30 to 15:00 Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicated Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation			Featured session: Tinnitus: Ears and brains				
Featured Session: Extra-musical benefits of music training Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicate Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	13:00	14:30	Poster Session #2 & #4				
Featured Session: Auditory and language processing in older adults Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicated Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation		15:00	Choose only 1 from 13:30 to 15:00				
Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15			Featured Session: Extra-musical benefits of music training				
Featured Session: Hearing aids: Ears and brains Featured Session: Listening effort: Ears and brains TUESDAY SEPTEMBER 20, 2016 08:15	40.00		Featured Session: Auditory and language processing in older adults				
TUESDAY SEPTEMBER 20, 2016 08:15	13:30		Featured Session: Hearing aids: Ears and brains				
08:15 10:15 Round Table Plenary: Evidence Base for Best Practices: Research and Applicate Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation			Featured Session: Listening effort: Ears and brains				
Choose only 1 from 13:00 to 14:30 Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	TUESDAY SEPTEMBER 20, 2016						
Featured Sessions: New and Emerging Innovations in Hearing Technologies Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation	08:15	10:15	Round Table Plenary: Evidence Base for Best Practices: Research and Applications				
Featured Sessions: Dual Sensory Impairment: Effects & Management Featured Sessions: Internet-based rehabilitation		14:30	Choose only 1 from 13:00 to 14:30				
13:00 14:30 Featured Sessions: Internet-based rehabilitation			Featured Sessions: New and Emerging Innovations in Hearing Technologies				
13:00 14:30			Featured Sessions: Dual Sensory Impairment: Effects & Management				
	13.00		Featured Sessions: Internet-based rehabilitation				
	13.00		Featured Sessions: Central processing				
Featured Sessions: Listening effort and hearing aids			Featured Sessions: Listening effort and hearing aids				
Podium Papers: Middle Ear			Podium Papers: Middle Ear				

TUESDAY SEPTEMBER 20, 2016 CONTINUED					
			Choose only 1 from 15:00 to 16:30		
	16:30		Podium Papers: Physiology: OAE to Cortex		
			Featured Session: Advances in Teleaudiology Assessment		
			Featured Session: Hearing, balance and falls		
15:00			Featured Session: Hearing in infants: Assessment and rehabilitation		
			Featured Session: Interventions for hearing loss using health psychology		
			Featured Session: Interventions for adults with dementia and their caregivers		
			WEDNESDAY SEPTEMBER 21, 2016		
			Choose only 1 from 8:30 to 10:00		
			Podium Papers: Hearing Aids - Perception, Attitudes and Culture		
			Podium Papers: Brain Imaging and ERP		
			Podium Papers: Cochlear Implant in Children		
			Podium Papers: Cochlear Implants - Techniques, Management and Training		
			Podium Papers: Frontiers in Aural Rehabilitation		
08:30	10:00		Featured Session: Emotion and hearing aids		
00.00	10.00		Featured Session: Bringing sound to the people: Promoting hearing health in the		
			community Featured Session: Genetics of Hearing Across the Lifespan		
			Featured Session: Testing Hearing And Hearing Aids in Realistic Situations		
			Featured Session: Acoustics and communication in school, workplace, health care		
			and community settings		
	12:00		Choose only 1 from 10:30 to 12:00		
			Podium Papers: Public Health		
			Podium Papers: Adult Aging: Brain to Life		
			Podium Papers: Cochlear Implants and Speech Understanding		
			Podium Papers: Hearing Aid and Technology Usability in Everyday Life		
			Podium Papers: Tinnitus		
10:30			Featured session: Accessibility and assistive technologies: People, devices and life		
			Featured session: Noise, ears and everyday life		
			Featured session: Music as noise, pleasure, and as an input to hearing aids		
			Featured session: Hearing, cognition and social participation in older adults		
			Featured session: Hearing, communication and social participation in children		
12:00	13:00		Student-Mentor Networking Lunch		
13:00	13:45		ISA-WHO Lecture: Making hearing care accessible for all		
13:45	15:45		Round Table Plenary: Hearing: a Global Public Health Priority		
16:15	17:00		Glorig Lecture: Listening in Noise		

TOTAL HOURS:
