Specific Responsibilities

- Audiometric and speech perception testing to aid in cochlear implant candidacy assessment
- Participation in cochlear implant clinics, follow-up speech processor programming
- ongoing patient management
- Outcome assessment and aural rehabilitation
- May include some teaching of graduate Audiology or Speech and Language Pathology students
- Opportunity to be involved in data collection for clinical research
- Other duties as required

Qualifications/Skills

- Master's Degree in Audiology or Dr. of Audiology required
- Registration with CASLPO required
- 2 years clinical audiology experience, previous experience with cochlear implant technology required
- Excellent interpersonal and communication skills
- Commitment to integrating Patient-Focused Care principles into professional practice
- Ability to operate as a team member with minimum direction

At Sunnybrook, it's about more than delivering quality patient care, pioneering non-invasive medicine, or exceeding all expectations for customer service excellence. It's about having the opportunity to be more challenged, more engaged, more fulfilled as a professional and as an individual, recognized for your personal contributions to the future of Sunnybrook and of cutting-edge health care.

As one of Canada's premier academic health sciences centres, we impact the lives of one million patients every year who count on us when it matters most. And, as one of Canada's Top 100 Employers, we have a vibrant culture where all members of our team are encouraged to continue to learn and grow, to achieve more, to be more innovative and go the extra mile in their day-to-day encounters with patients, families and each other.
