

Saint John Audiology

Position Available: Audiologist, Full-Time

Location: Saint John, New Brunswick

Saint John Audiology is an independently owned private practice audiology clinic and member of the Science of Hearing Group. We work closely with an ENT and have a heavy emphasis on diagnostic hearing testing, counseling, dispensing of hearing aids, hearing aid accessories and custom hearing protection devices.

The position offers a competitive full-time salary, professional licensure, liability insurance and access to training/conferences.

Job description:

The duties of the audiologist include, but are not limited to:

- case history taking, charting
- otoscopic examination
- audiometric testing including pure tone, speech and site of lesion testing
- impedance audiometry
- hearing aid evaluations including counseling, selection, ordering, fitting, dispensing, follow-up, validation and verification and minor repairs
- selection of assistive listening devices
- ear mold impressions and modification
- Industrial Audiometry
- tinnitus management
- maintenance and cleaning of equipment, tools of the trade and work space
- general office duties

Requirements:

- Masters Degree in Audiology
- SAC Certification or eligible for Certification
- Excellent communication/interpersonal/organizational skills
- High initiative
- Proactive customer approach, patience/listening
