

**Looking for a Change of Pace? Consider the beautiful area of Grey County on Georgian Bay
AUDIOLOGIST required for a 10 – 12 month temporary position beginning this summer and possibly
leading to a permanent full time position**

Our mission is to guide our clients to achieve improved auditory health and lifestyle through education regarding hearing conservation and rehabilitation. From our opening in 1996 we continue to provide a high standard of personal care to our clients and their significant others.

Our services include assessment for both peripheral and processing auditory disorders, dispensing and servicing of appropriate amplification devices and accessories, counselling, tinnitus management, educational workshops and everything else that assists our clients to achieve improved quality of life.

Our clients include children, adults and seniors. Hearing assessment and conservation programs are provided to several businesses.

The person we are seeking will

- * have experience of preferably five years or more, although all candidates are invited to apply
- * be a compassionate, patient and empathetic individual who works cooperatively with others for the benefit of our clients, staff, community and clinic
- * be knowledgeable regarding current technology in the areas of hearing aids, accessories, and assistive devices, manufacturer's programming software and have a firm grasp of equipment maintenance, troubleshooting and performance checks
- * have strong background with experience in the assessment and counselling of auditory processing disorders in children and adults as a definite asset, although a minimum of basic knowledge is a necessity
- * have excellent computer skills and be competent with MS Office
- * be knowledgeable regarding the CASLPO guidelines as they apply to all aspects of our profession
- * be flexible, able to problem solve, and will enjoy new challenges and opportunities.

This position requires a Masters of Audiology or equivalent, current registration/licensure with our provincial college (or at least eligibility), liability insurance, police background check, current first aid credentials (an asset), and will be eligible to provide services to clients covered under third party funding such as WSIB, ADP, VAC etc.

We are at the base of the Bruce Peninsula between Tobermory, Collingwood/Blue Mountain, and Sauble Beach with the Bruce Trail crossing through our area. Come join our team in Owen Sound – The Place You Want to Live.

Please send your cover letter, resume with references and contact information to audiologyOSA@gmail.com. We look forward to hearing from you.
