

Sound Advice Hearing Clinic is a private practice that provides audiology services for all ages. We are one of four sites that conducts diagnostic Infant Hearing Program services for the Toronto region. During the Covid-19 pandemic, many newborns were unable to access a hearing screening through the Infant Hearing Program. Sound Advice Hearing Clinic is looking to hire an audiologist to perform an interim modified infant screening during the global pandemic. The screening battery includes Otoscopy, Tympanometry, DPOAEs and Acoustic Reflexes. We are looking for a full-time or part-time audiologist to start as soon as possible. It is currently a temporary position, but has potential for turning into long-term employment. Future responsibilities may include diagnostic assessments and hearing aid related duties. We offer competitive remuneration and flexible hours.

Qualifications:

- Masters or Doctorate degree in Audiology
- CASLPO registration
- Strong interest in pediatric audiology
- Excellent communication and interpersonal skills
- Team player

Interested candidates are to submit their resume and cover letter to gina.oh@soundadvicehearing.ca by September 30, 2020. We will contact applicants selected for an interview. Thank you.
