

Williams Lake Hearing Clinic

Come work with us

Williams Lake Hearing Clinic has been serving the community of Williams Lake and its drawing area for 30 years. Since April 1996, it has been owned and operated by Lucas Jurek, RHIP.

Our philosophy and business model has always been not that of sales, but rather a passion of ***improving the quality of life of individuals and by extension their loved ones around them through better hearing. This is accomplished by focusing on the science and art of best possible hearing health care. At the end of the day, patient satisfaction is the driving force and number one priority!*** As a result, word of mouth and reputation is our best advertising. We have also earned the trust and respect of local primary care physicians and ENTs in our region. We aim to maintain our skills at the highest professional level.

In an effort to provide a wider scope of services, Lucas is looking to bring on board a Registered Audiologist that is also a Registered Hearing Instrument Practitioner registered with the College of Speech and Hearing Health Professionals of British Columbia (CSHBC). If they are not currently registered in BC, one that could easily become registered. Lucas welcomes applicants with experience and new graduates alike. Mentoring and training for new graduates will be provided as necessary.

Williams Lake, a city in the [Central Interior](#) of [British Columbia](#), in the central part of a region known as the [Cariboo](#). Williams Lake is the second largest city, by population of metropolitan area, in the Cariboo after neighbouring [Quesnel](#). The city is famous for its Williams Lake Stampede, the second largest professional rodeo in Canada after only the [Calgary Stampede](#). The region offers endless opportunities of four season outdoor activities left to the imagination. The primary industries in Williams Lake are [forestry](#), [logging](#), [sawmilling](#), [mining](#) and [ranching](#). Tourism is also significant in the area.

What Lucas offers:

- Full time position
- A competitive salary
- A common sense, no pressure and low stress environment
- A collaborative, client focused work ethic
- Generous appointment durations to achieve excellence with each person
- The right balance of work and life
- Weekday hours only, no weekends
- A single location, no travel necessary
- Professional development opportunities
- Paid annual professional membership dues (CSHBC, and one other of choice if desired)
- Spacious treatment rooms with diagnostic equipment including a spacious soundproof room, GSI AudioStar Pro and TympanoStar Pro with GSI suite, Verifit 2 (including autoREM)

Daily responsibilities

- The primary focus is adult hearing loss diagnostics, amplification and rehabilitation
- Maintain excellent relationships with clinic team, patients, physicians and other referral sources
- Fit and maintain hearing aids to evidence based standards (this is not a click and fit clinic!)
- Provide ideas and suggestions for making our patient care better

Qualification and skills required

- **Entrepreneurial mindset and common sense**
- **A great sense of humor**
- A good dose of energy, compassion, and enthusiasm
- A love of Audiology coupled with pride providing professional, exceptional and confident care; achieving the best client experience
- Ability to work alone and manage your own caseload efficiently
- Ability to exercise sound judgement, decision-making and problem solving
- Strong competency in the assessment, selection, fitting, verification, and validation of hearing aids – mainly deal with Oticon, but we do provide other brands for specific patient needs. Training in technology and brands will be provided
- Strong clinical standards and ability to follow protocols
