

We are looking for an Audiologist to join our team!

Overview:

AudioSense Hearing & Balance is a family owned and family run boutique audiology clinic in Yorkville, Toronto. We work with patients of all ages, including children and adults. We provide evidence-based clinical care to our patients, and our philosophy of care is three-fold: 1) patient-first, 2) service-first, 3) healthcare-first.

We are looking for a dynamic and motivated audiologist to join our team. We are looking for a self-starter with a positive attitude to lead our clinic's audiology services. As an audiologist with AudioSense, you will have the opportunity to work as part of a highly collaborative team with a diverse patient population. We think of our approach to clinical services as a happy marriage between evidence-based care with a focus on patient care. We also love thinking outside the box when it comes to our patients and are always collaborating with other care providers.

The ideal candidate will have clinical experience working with both children and adults. You will have some experience or interest working with patients who suffer from sound sensitivities, such as tinnitus/hyperacusis/misophonia, as well as familiarity working with all of the different hearing device manufacturers. You will also be familiar with advanced assessments for complex auditory deficits (i.e., auditory processing issues, high frequency monitoring, post-concussion, etc...). You will be responsible for the testing, evaluation, intervention and treatment of hearing health difficulties.

Minimum Qualifications:

- Master's degree in Audiology
- CASLPO registration in good standing
- Authorizer with ADP and ability to obtain authorizer status with other third-party insurance
- Over 2 years of experience in Audiology preferred, but new grads are welcome to apply
- Highly interested and motivated individual with a demonstrated passion for Audiology
- Must have a warm, kind, thoughtful, compassionate and flexible personality with a service-first outlook on patient care
- Ability to establish relationships with patients, their families, and their health-care providers
- Excellent communication skills (verbal and written) and excellent interpersonal skills
- Strong diagnostic/clinical skills, with the ability to recommend an intervention/treatment plan
- Demonstrated problem-solving skills, thoroughness, accuracy and attention to detail, and commitment to growth and quality improvement initiatives
- Strong computer skills, including the ability to work with Microsoft Office, Noah, and all Hearing Device Manufacturer softwares
- Proven abilities to sell, prescribe and dispense hearing devices
- Bilingualism in French and English is an asset

Job Type: Permanent Part-time or Permanent Full-time. Flexible work days / hours possible.

Compensation: Commensurate with experience

If you feel that we could be a good fit, please submit a cover letter and resume or CV to jobs@audiosense.ca
