

**Assistant Professor—Audiology (Tenure Stream)  
School of Communication Sciences and Disorders  
Faculty of Health**

The School of Communication Sciences and Disorders, Faculty of Health invites applications for a full-time, tenure-stream faculty position in an area of audiology that compliments the existing strengths of the School and Faculty.

Applicants must have a Ph.D. in audiology or a related field. Expertise of the candidate must be supported by an excellent record of scientific productivity including peer-reviewed publication records and research plan. One to two years of postdoctoral experience and/or eligibility for registration in the Nova Scotia College of Audiologists and Speech-Language Pathologists (NSCASLP) is preferred. The incumbent will have demonstrated ability or potential for excellence in graduate teaching in areas that complement our curriculum, as well as excellent oral and written communication skills.

The successful candidate is expected to secure extramural research funding, including Tri-Agency funding, and lead an innovative and collaborative research program. The candidate will be required to teach, mentor, and supervise graduate students. The teaching assignments will include courses that reflect the expertise of the successful candidate. The candidate is expected to become an active and engaged member of the School, Faculty, and University. Activities at local, national, and international levels are expected to promote continuous improvement in research, teaching, and learning at Dalhousie.

Applications must include a cover letter stating qualifications and experience; a Curriculum Vitae, including a list of publications and major projects; a statement of teaching experience and interests; and copies of teaching evaluations, if available. Applications must also include an original, innovative five-year research program plan with clear objectives that describes methodological approaches, including partnerships or collaboration, and that addresses how proposed activities will be funded.

Graduates of the School of Communication Sciences and Disorders are highly competent professionals, who are sought-after locally, nationally, and internationally; our research is at the forefront of knowledge, advancement, and translation; and our outreach services, which include several in-house clinics that serve the community, are valued for their unique and innovative contributions to society. The School maintains strong collaborative links to other schools within the Faculty of Health as well as with the Department of Psychology/Neuroscience, Faculty of Science. The School is also affiliated with Hearing and Speech Nova Scotia which provides publicly funded audiology services to all Nova Scotians as well as speech-language services to both adults and preschool and home-school children. The School's strategic plan can be found at <https://www.dal.ca/faculty/health/scsd/about/strategic-plan.html>

Dalhousie University is comprised of 6,000 faculty and staff amongst its 13 faculties. Current enrollment is 20,000 graduate and undergraduate students. As part of Canada's U15 research-intensive group, Dalhousie University is an influential driver of the region's intellectual, social and economic development. It is the largest university in Atlantic Canada and is located on the ancestral and unceded territory of the Mi'kmaq in the heart of Halifax (Kjipuktuk), a scenic coastal city and capital of Nova

Scotia which is home to 13 Mi'kmaq First Nations, a deeply rooted African Nova Scotia community, and an increasingly diverse population which also includes a vibrant workforce of people living with (dis)Abilities.

The Faculty of Health's faculty, staff, and students are committed to improving the well-being of individuals, families, communities, and populations through diverse health programming, collaborative research, and strong community partnerships. The Faculty of Health is one of the largest faculties at Dalhousie, comprised of eight schools, one college and one program, more than 200 faculty members, 80 staff members, and approximately 3,000 students. With the most programmatically diverse health faculty in Canada, our students are exposed to a broad range of health topics and learning experiences.

Please submit your complete application package to the PeopleAdmin portal at <https://dal.peopleadmin.ca/postings/8696>

Please include Search #8696 in your cover letter. *Review of applications will begin February 28, 2022, and continue until the position is filled.*

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons (especially Mi'kmaq), persons with a disability, racialized persons, including persons of Black/African descent (especially African Nova Scotians), women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. For more information, please visit [www.dal.ca/hiringfordiversity](http://www.dal.ca/hiringfordiversity).

The successful candidate will be required to provide proof of full vaccination or may seek an accommodation from Dalhousie's vaccine requirements on grounds [protected under provincial human rights legislation](#). Visit the [Campus Check website](#) for more information.
