

**Audiologist:
Private practice, Full-Time position, and Amazing Team!**

*You enjoy making a difference in the lives of others.
You are a self-starter that wants to do everything you can to help people hear better.*

We are a busy, single location, independent, family-owned hearing clinic looking to welcome an experienced full-time audiologist or hearing instrument specialist to our team. We need an individual who is **motivated, hardworking, and compassionate**. This is an exciting opportunity to join a busy and award-winning practice! This position focuses on providing professional, thorough, personalized, patient-centred, and evidence-based hearing care for our patients. We are Brampton's premiere hearing aid clinic with a reputation for providing unmatched service since 1970.

We work together as a team to create an environment that makes people comfortable and helps them work towards better hearing and quality of life. The right candidate will appreciate autonomy, be naturally self-driven, and follow best practices.

Our clinicians assess hearing, dispense hearing aids and accessories, and educate and counsel consumers on the use, care, maintenance, benefits and limitations of hearing aids and assistive listening devices.

POSITION SUMMARY: The clinician will be responsible for performing comprehensive diagnostic testing, hearing aid evaluation, selection, and fitting, verification and validation, counseling, and follow-up care. Our clinic focuses on treating hearing loss in school-aged children and adults.

JOB FUNCTIONS:

Administers Diagnostic Tests

- Conducts thorough audiometric assessments following best audiological practices.
- Performs all standard test measures as well as speech in noise assessments and tinnitus assessments.
- Interprets test results and provides reporting to physicians and other medical professionals.

Manages Hearing Rehabilitation

- Counsels patients, following practice protocols, in a caring and respectful manner regarding test results, making recommendations regarding hearing care options. Reviews treatment options available to improve hearing loss.
- Performs selection, programming, and verification of the appropriate hearing aid technology to best meet the patient's individual needs.
- Provides ongoing management including follow-up and education, hearing aid checks and adjustments, repairs, and cleanings as necessary to maintain ongoing patient relationships.
- Uses software to record every patient interaction and financial transaction.
- Performs cerumen management utilizing irrigation, suction and/or instrumentation techniques when required.

Assists in Professional and Community Outreach

In addition to professional responsibilities, the clinician will be part of a team engaging in fundraising, marketing outreach and growing positive relationships with colleagues, vendors, fellow healthcare practitioners, and community organizations. This includes informational presentations regarding hearing loss, treatment options, and technology to local community groups, facilities, and medical professionals.

QUALIFICATIONS:

- Master's or Doctorate degree in Audiology.
- Must be registered and in good standing with CASLPO.
- Must show exemplary clinical decision making abilities that promote efficient patient care.
- Excellent verbal and written communication skills that allow effective working relationships with a diverse patient, colleague, and vendor population so that goals are achieved.
- Strong keyboard/computer/Audiology diagnostic and hearing aid software and equipment experience.
- Ideal candidate has at least 2 years experience dispensing hearing aids in Ontario.
- Be organized, able to multi-task, detail oriented.

If you are looking for a professional, challenging, stimulating environment and meet the above criteria, please apply now!

Benefits:

- Paid holidays and PTO
- Health benefit package
- Training and education
- Performance based compensation incentives
