Agenda

- Welcome to CAA
- Introductions
- Panel Session/Q&A

Welcome to CAA

Canadian Academy of Audiology

FOR audiologists...BY audiologists

Including audiology students

Dedicated to enhancing the role of audiologists as primary hearing health and balance care specialists through:

Advocacy – Education – Research

What we do

CAA Member Benefits

Professional Advocacy

- Standardized Professional Guidelines
- National Advocacy (CIHTF)
- Advocates to Legislators, Industry & Education
- Marketing Materials
- Audiology Awareness Campaigns

Annual Conference

- Discounted fees
- Submit original research
- Instructional courses by world-renowned speakers
- Trade show showcasing newest advances
- Networking opportunities

Student Specific Benefits

- Reduced member fees
- Reduced conference rates
- New graduate rates
- Student Awards
- Canadian Audiologist
- Liability insurance

Introducing our Panel

Jillian Price, M.Sc, Aud (C)

Jillian graduated with a Masters degree in Audiology from the University of Western Ontario in April 2004. Upon graduating, Jillian joined HearingLife Canada and began working in London, Ontario and in 2013, accepted the role as Chief Audiologist.

Jillian has 18 years of experience working with the adult population in a busy clinic. Her role as Chief Audiologist allows Jillian to do what she really loves which is helping those with hearing needs and speaking to the public about hearing loss. She is passionate about hearing awareness, hearing loss prevention and rehabilitation.

Through the Campaign for Better Hearing, Jillian is able to educate Canadians about hearing loss and early detection as well as help those in need through the give-back program; something Jillian and the rest of the staff are so excited and honored to be a part of. She also enjoys time with her husband and two beautiful children.

Daniela Stangherlin, Au.D.

Daniela is a cochlear implant audiologist for the Surgical Hearing Implant Program in the province of Manitoba. She works in hearing intervention at Central Speech & Hearing Clinic with pediatric through geriatric populations.

Daniela has experience in a variety of clinical settings and currently fits children and adults with cochlear implants, bone-anchored implants and hearing aid technology.

She completed her clinical doctorate in Audiology (Au.D.) from Ohio University after obtaining a post-baccalaureate diploma in Communication Sciences and Disorders from the University of North Dakota.

Her latest research interests include variability of patient outcomes with implantable hearing technology. Daniela has worked as an audiology teaching assistant and has been a clinical supervisor to many university students and enjoys the mentorship process.

Salima Jiwani, Ph.D., M.Sc.

Salima Jiwani (Ph.D.) is the founder/president and lead audiologist at AudioSense, a Hearing and Balance clinic located in Yorkville, Toronto. She is also an Adjunct Professor in the department of Speech-Language Pathology, Department of Rehabilitation at the University of Toronto and Clinical Instructor with the Distance Education program at Salus University.

She earned her Ph.D. in Auditory Neurophysiology, Cochlear Implants and Neuroscience with the Institute of Medical Science at the University of Toronto in 2014. She completed her Doctoral work at the Cochlear Implant Laboratory at the Hospital for Sick Children in Toronto where she worked with children and adolescents who are deaf and have used a cochlear implant to hear for most of their lives.

Salima is an advocate for the profession of audiology as Past-President of AA and former chair of the Science and Education committee. In these roles, she encouraged clinical research in the field of audiology to elevate our profession, give audiologists a voice, and promote optimal audiological health care for all her patients.

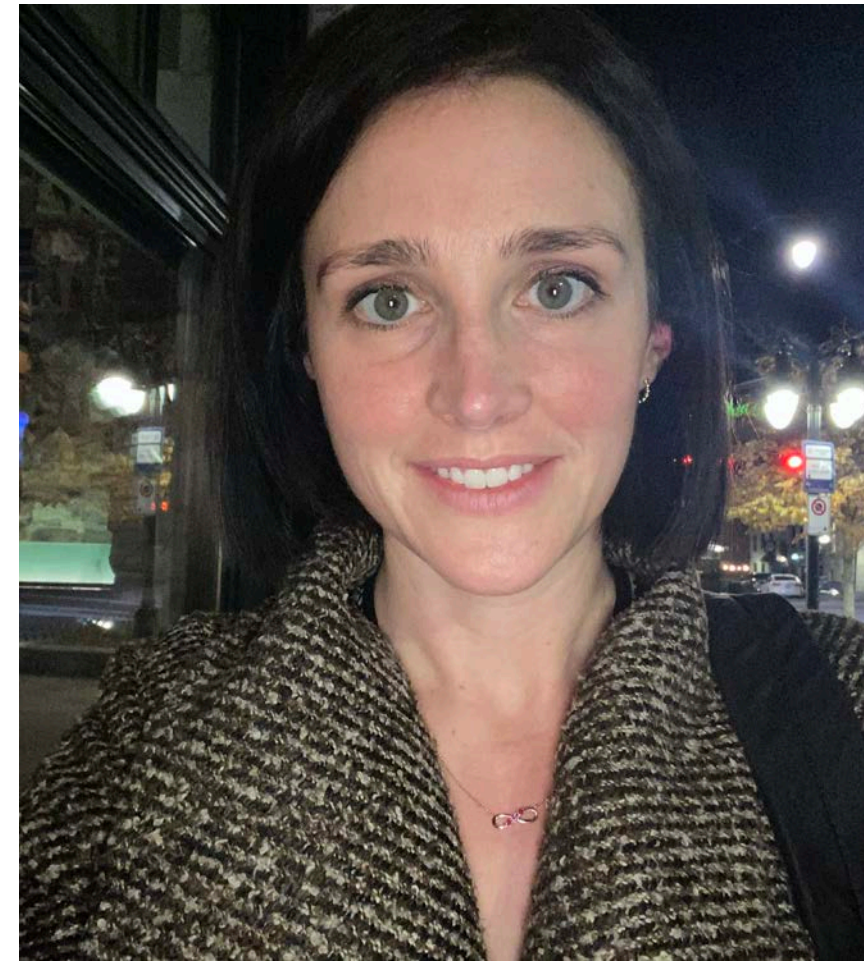

Bonnie Cooke, MCIsc

Bonnie Cooke is a registered clinical audiologist at Kingston Health Sciences Centre at Hotel Dieu Hospital in Kingston, Ontario where she works with patients of all ages performing hearing assessments and providing treatment/management for those with hearing loss. In addition, Bonnie Cooke is a part-time course instructor for the Communication Disorders Assistant program at St. Lawrence College where she teaches the amplification component of the curriculum.

Bonnie Cooke has experience working in both the public and private health care sectors, as well as three years of experience as an industry representative with Oticon Medical.

While working with Oticon Medical, Bonnie worked as a Business Development Manager and Clinical Specialist where she provided support to clinicians, researchers and surgeons who work with cochlear implants and bone anchored hearing devices.

Panel Sessions
