SOUNDS+ ANNUAL CONFERENCE

Title: Reducing Barriers for People Living with Hearing Loss during In-Person Meetings

Date: Tuesday, May 16th, 2023

Presenters: Janine Verge & Duncan Floyd

Abstract: In celebration of Hearing and Speech Month, Janine Verge and Duncan Floyd from Accessible Hearing Solutions will review the Canadian Academy of Audiology's new guideline "Reducing Barriers for People Living with Hearing Loss during In-Person Meetings." Accessibility is about respect and engagement for all participants. In this one-hour presentation, attendees will learn about communication access, universal design, and how to plan and conduct an accessible in-person meeting for people who are hard of hearing. Communication is a two-way street, so it is important everyone does their part to understand the barriers people face and ways to help overcome them.
