12 Phone and Video Calling Solutions for People with Hearing Loss

1. Connect your hearing aids directly to your phone or computer
2. Customize sound using tone and volume controls
3. Listen with both ears using speakerphone or headphones
4. Try captioning apps
5. Use video platforms for speech reading
6. Enable visual and vibration alerts
7. Reduce background noise
8. Practice good communication skills
9. Use a video or message relay service
10. Consult with an audiologist
11. Advocate for yourself and others
12. Remember hearing access is a basic human right!
