

We are looking to fill two Audiologist positions for our Toronto and Markham clinics !

AudioSense Hearing, Balance & Concussion is a family owned and family run boutique audiology clinic. We have two clinic locations; one in Yorkville, Toronto, and one in Markham, Ontario. We work with patients of all ages, including children and adults. We provide evidence-based clinical care to our patients, and our philosophy of care is three-fold: 1) patient-first, 2) service-first, 3) healthcare-first.

We are looking for two dynamic and motivated audiologist to join our team. We are looking for a self-starter with a positive attitude to lead our clinic's audiology services. As an audiologist with AudioSense, you will have the opportunity to work as part of a highly collaborative team with a diverse patient population. We think of our approach to clinical services as a happy marriage between evidence-based care with a focus on patient care. We also love thinking outside the box when it comes to our patients and are always collaborating with other care providers.

The ideal candidate will have clinical experience working with both children and adults. You will have some experience or interest working with patients who have a variety of hearing and audiological needs, including cerumen management, custom earmolds, hearing loss, sound sensitivities including tinnitus/hyperacusis/misophonia, as well as familiarity working with different hearing device manufacturers. You will also be familiar with advanced assessments for complex auditory deficits (i.e., auditory processing issues, high frequency monitoring, post-concussion, etc...) and aural rehabilitation strategies. You will be responsible for the testing, evaluation, intervention and treatment of these hearing health difficulties.

Minimum Qualifications:

- Master's degree in Audiology
- CASLPO registration in good standing (opportunity for new grad mentorship)
- Over 2 years of experience in Audiology preferred, but new grads are welcome to apply
- Authorizer with ADP and ability to obtain authorizer status with other third-party insurance
- Highly interested and motivated individual with a demonstrated passion for Audiology
- Must have a warm, kind, thoughtful, compassionate and flexible personality with a service-first outlook
- Ability to establish relationships with patients, their families, and their health-care providers
- Excellent communication skills (verbal and written) and excellent interpersonal skills
- Demonstrated problem-solving skills, thoroughness, accuracy and attention to detail, and commitment to growth and quality improvement initiatives
- Strong diagnostic/counseling skills, with the ability to recommend an intervention/treatment plan for pediatric and adult populations, hearing loss, tinnitus, hyperacusis, misophonia, auditory processing disorders, balance disorders, cerumen management and custom earplugs
- Proven abilities to prescribe, dispense devices, and offer follow-ups for different auditory conditions

Job Type: Permanent Full-time.

- Competitive compensation package and time off/vacation benefits
- Group health, vision & dental benefits, including life and long-term disability
- Paid professional membership dues and professional liability insurance
- Career development opportunities and support for ongoing education and learning
- Company learning and social events
