

# Culturally Safe Early Intervention for Deaf/Hard of Hearing Children in British Columbia Online Research Survey

## SEEKING INPUT FROM SERVICE PROVIDERS

It can be challenging for early intervention service providers to meet the needs of diverse cultures. This survey asks service providers to share their perspectives about their experiences when delivering early intervention services.

The findings will help us improve services for all!

## YOU CAN PARTICIPATE IF:

You are providing early intervention services\* to young d/Deaf or hard of hearing children and their families in BC, or have done so within the last three years.

\*This includes audiological services, medical and mental health support services, early speech and language services, role models and other support services.

Your experience can help future families!

## DETAILS

- The survey may take about 45 mins to complete.
- Your participation is voluntary – you are free to withdraw at any time.
- Your responses and personal information are strictly confidential.
- If you complete the survey, you can choose to enter a draw to win an iPad.
