

Elliot Lake Hearing Services

Once in a Lifetime Opportunity for a Motivated HCP!

Perfect opportunity for a Hearing Care Professional to own and operate a well-established hearing clinic in beautiful Elliot Lake, Ontario.

Once a thriving mining town, Elliot Lake is now a cozy, affordable, age-friendly community. Located halfway between Sudbury and Sault Ste. Marie, Elliot Lake is your natural playground, offering year-round activities in and around the 4000 lakes and rivers in the region. This community offers a wide array of recreational opportunities from Arts and Culture to camping, fishing, hiking, and birdwatching. Walk the trail around Sherriff Creek Wildlife Sanctuary, or spend the day at one of our beaches in the summer. We also boast a world-class golf course and ski hill. Elliot Lake has all the amenities of a big city without the mayhem. Affordable living, friendly people, and natural beauty await you.

Elliot Lake Hearing Services opened in 2014. We are a successful, established hearing clinic with a large catchment area and an excellent reputation. We are looking for someone to continue providing the best hearing health care possible for a community that has been extremely supportive. The opportunity to purchase a turn-key operation doesn't come around very often.

Not sure if you want to own a clinic? We will also consider hiring a full-time clinician.

We are looking to offer

- An opportunity for either partnership or sole ownership of a full-time, established hearing practice
- Signing bonuses
- A stress-free, welcoming environment in a beautiful location
