

CLINICAL/DISPENSING AUDIOLOGIST

Northeast Hearing Healthcare Inc. is a 27 year old independently owned dispensing audiology practice located in New Glasgow, Nova Scotia. Our practice works predominantly with the adult population. We dispense only to our adult population. In addition to providing audiological assessment and rehabilitation services our practice has successfully provided cerumen management services to the community for many years. **We currently have one full-time/part-time position available in New Glasgow. Start date: Sept 3, 2024 (flexible).**

Qualifications we are interested in include:

- Master's degree in Audiology or Hearing Instrument Practitioner with a minimum of 5 years experience is preferred
- SAC Certification, if Audiologist
- NSCASLP License
- Hearing aid/ALD dispensing experience an asset

Job Description:

- Administer and interpret a variety of diagnostic audiological tests such as air and bone conduction audiometry, speech audiometry, immittance testing and otoscopy to determine type and degree of hearing impairment, effects on comprehension, communication and speech in addition to providing appropriate referral recommendations.
- Audiological assessments may be conducted for various populations including geriatric, adult and pediatric populations using appropriate clinical equipment.
- Interpret test results to determine communication problems and provide the most appropriate recommendations.
- Provide appropriate counseling and patient-centered care to address audiological rehabilitation needs.
- Prescribe, select, fit and verify appropriate amplification including appropriate recommendations for communication strategies, and solutions.
- Provide a high standard of patient care by demonstrating a proactive approach to patient care from the first encounter to all future hearing needs.
- Maintain an expertise in the recommending, fitting and troubleshooting of current hearing aid technology.
- May provide cerumen management services according to Northeast Hearing Healthcare Inc. established protocol.
- Work with the front office staff for both walk-in patients and incoming telephone calls.
- Ensure patient follow-up is completed to ensure future hearing care needs are addressed.
