

Permanent Full-time Audiologist for our Downtown Toronto clinic !

Company Description

AudioSense Hearing, Balance & Concussion is a family owned and family run boutique audiology clinic that takes a holistic approach to audiological health-care. We have two clinic locations; one in Yorkville, Toronto, and one in Markham, Ontario. We work with patients of all ages, including children and adults. We provide evidence-based clinical care to our patients, and our philosophy of care is three-fold: 1) patient-first, 2) service-first, 3) healthcare-first. We provide assessments and management/treatment for all forms of hearing and vestibular difficulties. In addition to testing for hearing and dispensing hearing aids, we also provide follow-up for implantable devices such as cochlear implant mappings and bone anchored hearing aids, assessments and intervention for Tinnitus, Hyperacusis, Auditory Processing Disorders, and auditory symptoms of concussions.

Role Description

We are looking for a dynamic and motivated audiologist to join our team at our Yorkville location in Downtown Toronto.

We are looking for a self-starter with a positive attitude to lead our clinic's audiology services. As an audiologist with AudioSense, you will have the opportunity to work as part of a highly collaborative team with a diverse patient population. We think of our approach to clinical services as a happy marriage between evidence-based care with a focus on patient care. We also love thinking outside the box when it comes to our patients and are always collaborating with other care providers.

The ideal candidate will have clinical experience working with both children and adults. You will have some experience or interest working with patients who have a variety of hearing and audiological needs, including cerumen management, custom earmolds, hearing loss, sound sensitivities including tinnitus / hyperacusis / misophonia, as well as familiarity working with different hearing device manufacturers. You will also be familiar with advanced assessments for complex auditory deficits (i.e., auditory processing issues, high frequency monitoring, post-concussion, etc...) and aural rehabilitation strategies. You will be responsible for the testing, evaluation, intervention and treatment of these hearing health difficulties

Minimum Qualifications:

- Master's degree in Audiology or Audiology Doctorate from an accredited university
- CASLPO registration in good standing (opportunity for new grad mentorship)
- Over 2 years of experience in Audiology preferred, but new grads are welcome to apply
- Authorizer with ADP and ability to obtain authorizer status with other third-party insurance
- Highly interested and motivated individual with a demonstrated passion for Audiology
- Must have a warm, kind, thoughtful, compassionate and flexible personality with a service-first outlook
- Ability to establish relationships with patients, their families, and their health-care providers
- Excellent communication skills (verbal and written) and excellent interpersonal skills
- Demonstrated problem-solving skills, thoroughness, accuracy and attention to detail, and commitment to growth and quality improvement initiatives

- Strong diagnostic/counseling skills, with the ability to recommend an intervention/treatment plan for pediatric and adult populations identified with hearing loss, tinnitus, hyperacusis, misophonia, auditory processing disorders, balance disorders, cerumen management and custom earplugs
- Proven abilities to prescribe, dispense devices, and offer follow-ups for different auditory conditions

Job Perks

- Competitive compensation package and flexible time off/vacation benefits, including full time salary ranging from \$95,000 to \$125,000 plus bonus, commensurate with experience
- Full suite of group health, vision & dental benefits, including life and long-term disability
- Paid professional membership dues and professional liability insurance
- Career development opportunities and support for ongoing education and learning
- Company learning and social events

If you feel that we could be a good fit, please submit a cover letter and resume or CV to jobs@audiosense.ca
