

Join ReSound for

Maximizing hearing in noise with ReSound Nexia and ReSound Multi-Mic+

CAA 2024 | Kelowna, BC

Date:

Tuesday, October 8th, 2024

Time:

12:40 PM - 1:25 PM

Location:

Vasseaux Room - Delta Hotels Grand Okanagan Resort

OUTLINE

Hearing speech in noise continues to be the most difficult listening situation for people with hearing loss. This talk will discuss our latest technology updates in ReSound Nexia hearing aids that improves speech understanding in noise. We will also cover the additional benefits for hearing in noise with our newest accessory, the ReSound Multi-Mic+.

SPEAKER

Jenn Schumacher, Au.D. Mgr., Medical Communications at GN Hearing

Jenn is an audiologist and medical writer with more than a decade of experience in the hearing aid industry. Since joining GN Hearing in 2014, she has focused on developing communications about hearing aids and audiology for hearing care professionals, physicians, and patients. Her background includes conducting hearing aid research and clinical trials, working on fitting software development, and fitting hearing aids in hospital clinics.
