

Full-time Audiologist position available for our Toronto General Hospital and Yonge and Lawrence clinics!

Munk Hearing Centre at Toronto General Hospital, is the first and only full-service hearing aid dispensary for the University Health Network (UHN). We work closely with the Hearing and Balance Centre and the Department of Otolaryngology to address the hearing health care needs of our patients. We pride ourselves on offering unmatched service and having the knowledge and experience to provide care for even the most medically-complex patients. We have recently introduced our model of care at the community level, with our new location at Yonge & Lawrence.

We are in search of a candidate who has the drive, dedication, and creativity to deliver best-in-class care for our patients. If you are interested in having an exciting and challenging caseload while working in a unique clinical setting with an incredible team of skilled professionals, we would like to hear from you.

Job Description

We are recruiting one full-time (1.0) audiologist for the Munk Hearing Centre. The successful applicant must be willing to split their time between our two locations (Toronto General Hospital and Yonge & Lawrence).

Candidates with an interest in vestibular practice are also encouraged to apply, as we can offer 1-2 days per week at our diagnostic clinic, the Centre for Advanced Hearing and Balance Testing at Toronto General Hospital, if desired.

Who We Are Looking For

The successful applicant should be an enthusiastic lifelong learner with a passion for audiological practice and the ability to work well in a team environment. They must be highly motivated, conscientious and reliable while also being compassionate and caring. They must also possess strong interpersonal, communication and organizational skills, along with problem solving and critical thinking skills. An ability to

think outside-the-box and push the boundaries of practice would be an asset as we continue to grow and add services. Flexibility is a necessity for us as we grow our practice locations.

- Master's or Doctorate Degree in Audiology (*required*)
- Registered with CASLPO (*required*) and ADP (*preferred*)
- Experience with tinnitus or CAPD an asset
- Research skills an asset

Duties and Responsibilities

Include but are not limited to:

- Complete audiological assessments
- Aural rehabilitation including hearing aid evaluations, dispensing and all appropriate follow-up/counselling (including for medically complex/surgical cases)
- Cerumen management (bedside and under microscopy, training to be provided)
- Hearing tests for ENT clinic
- Tinnitus Counselling

Professional Responsibilities

- Collaboration in development of best practice guidelines
- Participation in educational activities, including occasional after-hours opportunities
- Supervision and mentorship of students

What We Offer

- Full-time weekday schedule (M-F, 8am to 4pm); opportunity for extended work hours if desired
- 35 hours per week (1 hour lunch)
- Collaborative environment
- Clinical/research development opportunities
- Educational opportunities
- Potential to add vestibular evaluation casework
- Freedom to choose all hearing aid manufacturers equally
- Patient-centred scheduling policies (i.e. more time for more challenging cases)

- Comprehensive benefits package, including extended health, dental and vision

While our main site operates within Toronto General Hospital, this is a non-union, non-UHN (University Health Network) position.

Application Details

Application deadline: October 11, 2024.

Only candidates selected for interviews will be contacted, though we thank all applicants for their interest in working with us. We are hoping to hire for an early-November start date.

Please email your resume with cover letter to admin@munkhearingcentre.ca.
