

Full-time Audiologist position available for our Toronto General Hospital and Yonge and Lawrence clinics! 6-Month Contract, With Potential to Transition into Permanent Role.

The Munk Hearing Centre and the Centre for Advanced Hearing & Balance Testing are seeking a full-time audiologist to join our growing and dynamic practice. This is a 6-month contract position split between diagnostics and dispensing, with strong potential to become a permanent role for the right fit.

Joining our team means becoming part of one of the warmest, most collaborative audiology teams in the city. Our clinicians and administrators genuinely enjoy working together, and it shows in everything we do. If you've ever wished for a workplace that's both clinically rich and genuinely enjoyable, this could be the perfect fit. We'd love to hear from you.

What You Can Expect:

- A fast-paced, team-oriented setting (you'll be working alongside up to 16 team members on-site)
- A balanced caseload that includes both diagnostics and hearing aid dispensing in both a hospital and private-practice setting
- A chance to actually apply the full scope of what you learned in school — electrophysiology, vestibular testing, microsuction and more (don't worry – we will train you)
- A culture of clinical excellence: we are serious about delivering care at the highest possible standard
- Mentorship and camaraderie in equal measure

Who We Are Looking For

The successful applicant should be an enthusiastic lifelong learner with a passion for audiological practice and the ability to work well in a team environment. They must

be highly motivated, conscientious and reliable while also being compassionate and caring. They must also possess strong interpersonal, communication and organizational skills, along with problem solving and critical thinking skills.

- Master's or Doctorate Degree in Audiology (*required*)
- Registered with CASLPO (*required or in-progress*) and ADP (*preferred*)
- Experience with vestibular assessment and electrophysiology an asset
- Experience with tinnitus or CAPD an asset
- Willingness to split time between Toronto General Hospital (tentatively 3 days/week) and our Yonge & Lawrence location (tentatively 2 days per week).
Required.

Duties and Responsibilities

Include but are not limited to:

- Comprehensive audiological assessments
- Aural rehabilitation including hearing aid evaluations, dispensing and all appropriate follow-up/counselling (including for medically complex/surgical cases)
- Cerumen management (bedside and under microscopy)
- Full vestibular test battery (videonystagmography, video head impulse, cervical and ocular vestibular evoked myogenic potentials)
- Electrocochleography
- Neurological ABRs
- Cortical Evoked Potentials
- Hearing tests for ENT clinic
- Tinnitus Counselling

Comprehensive training will be provided for candidates without prior experience in these areas of practice.

Professional Responsibilities

- Participation in educational activities, including occasional after-hours opportunities
- Supervision and mentorship of students

What We Offer

- Full-time weekday schedule (M-F, 8am to 4pm)
- 35 hours per week (1 hour lunch)
- Collaborative environment
- Clinical/research development opportunities
- Educational opportunities
- Freedom to choose all hearing aid manufacturers equally
- Patient-centred scheduling policies (i.e. more time for more challenging cases)
- Comprehensive benefits package, including extended health, dental and vision

While our main site operates within Toronto General Hospital, this is a non-union, non-UHN (University Health Network) position.

Application Details

Application deadline: July 2, 2025.

Only candidates selected for interviews will be contacted, though we thank all applicants for their interest in working with us. **We are hoping to hire for a late-July start date.**
