

## EMPLOYMENT OPPORTUNITY

<b>POSITION:</b>	Cochlear Implant Audiologist
<b>EMPLOYER:</b>	Central Speech & Hearing Clinic
<b>JOB TYPE:</b>	Full Time
<b>POSTING END DATE:</b>	September 30, 2025

The Central Speech and Hearing Clinic is a not-for-profit organization that supports children and adults who are deaf or hard of hearing. The clinic provides family-based listening and spoken language intervention to children and audiology services to children and adults who use hearing aids, bone-anchored hearing aids and cochlear implants. We are searching for a dedicated audiologist with experience in cochlear implant management to work alongside our intervention team to provide audiology support to our patients.

### PURPOSE:

- Administer cochlear implant candidacy assessments for children & adults.
- Provide audiological services to children & adults with hearing loss as part of the cochlear implant program.
- Provide audiological support & maintenance to children & adults with hearing aids, bone-anchored hearing aids & cochlear implants. Tasks may include but are not limited to administrative duties, equipment troubleshooting, hearing assessments & hearing aid dispensing.

### QUALIFICATIONS:

- Master's degree in Audiology.
- Current registration & certification with the College of Audiologists and Speech Language Pathologists of Manitoba (CASLPM).
- Minimum 2 years of clinical experience related to cochlear implant management, evaluations, programming & troubleshooting.
- Demonstrated experience (or willingness to learn) in the delivery of audiological services to children & adults with hearing loss.
- Current advanced competency certification in cochlear implant management or equivalent.
- Commitment to expand knowledge and experience in the field of cochlear implant technology & listening and spoken language therapy.

### CORE COMPETENCIES

- Strong oral & written English communication skills.
- Efficient time management abilities & organizational skills.
- Ability to work independently & collaboratively as part of an interdisciplinary team.
- Advanced critical thinking & problem solving skills.
- Adaptable & takes initiative.

### RESPONSIBILITIES

- Maintain a license in Audiology with CASLPM as a member in good standing.
- Assess, plan and execute audiological services in accordance with CASLPM guidelines.
- Partner with the clinical team to support children with hearing loss.
- Provide consultation to daycares, nursery/preschools or schools when required.
- Comply with all federal & provincial legislation to protect our patients (*PHIA, FIPPA*).
- Assist in the development and purchase of audiological equipment and materials.
- Provide training, mentorship and resources to students.

### HOW TO APPLY

- Apply to Janelle Kent at [jkent@centralspeech.ca](mailto:jkent@centralspeech.ca)
- Closing date is September 30, 2025
