

Outreach Opportunity for Canadian Audiologists

Rotary International is building a hearing clinic complete with a large sound room, two channel clinical audiometer, otoacoustics and impedance in the Good Samaritan Hospital in La Romana Dominican Republic. Soon we will have ABR for newborn hearing screening. An ENT is also part of the clinic.

Do you want to make a global impact?

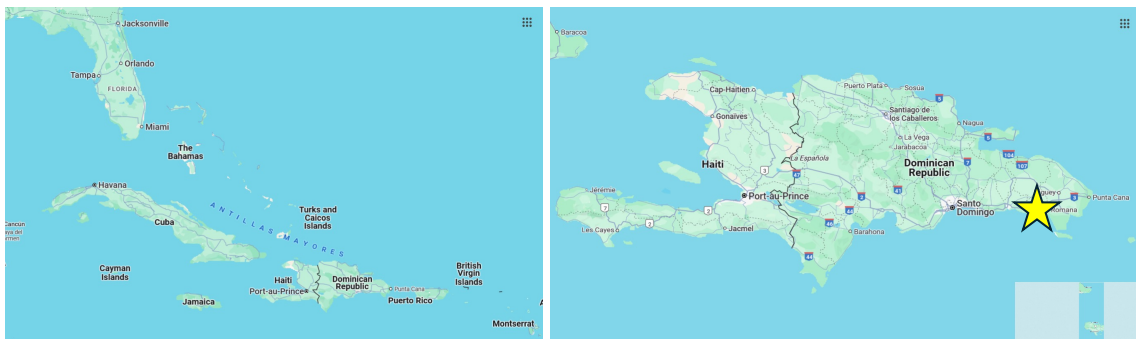

If you want an amazing international experience, we are seeking Audiologists to volunteer their time and expertise to work in the clinic for diagnostics and hearing aid fittings.

For more information, please contact
Roger Fagan, AuD at

Markus Hilbert, AuD at
markus@hearo.ca or call 778-215-4989

The Clinic is at the Good Samaritan Hospital

La Romana, Dominican Republic

La Romana is a city on the Dominican Republic's Caribbean coast and a gateway to nearby resort areas. Overlooking the Chavón River, Altos de Chavón is a re-created 16th-century Mediterranean village with artists' workshops. An obelisk painted with colorful images of local life stands in the city center. South of the city is Catalina Island, with beaches, coral reefs and the wrecked ship of pirate William Kidd.
