

**Providence
Health Care**

How you want to be treated.

Providence Health Care is Hiring!

Location: Vancouver, BC, Canada

Work Site: St. Paul's Hospital

Status: Regular Full-Time

Schedule: 8:00am to 4:00pm, weekdays.

Hourly Rate: \$42.27 to \$52.81 per hour.

Work Model: On-site.

Where innovation in hearing care began in Canada. Join us as a Cochlear Implant Audiologist!

We are hiring a full-time **Cochlear Implant Audiologist** to join the Audiology Team at St. Paul's Hospital, home to the BC Adult Cochlear Implant Program, the only adult cochlear implant centre in British Columbia. St. Paul's provides the full continuum of care for adults with severe hearing loss, from assessment through long-term rehabilitation, and performed Canada's first cochlear implant in 1982.

About the Role

Working within an interdisciplinary team and reporting to the Professional Practice Leader, the CI Audiologist provides comprehensive cochlear implant audiology services, including:

- Cochlear implant candidacy assessments and audiologic evaluations
- Intra- and post-operative testing and device programming
- Post-implant follow-up, rehabilitation support, and patient/caregiver education
- Consultation with physicians, team members, and community partners
- Participation in program planning, education, and research activities

What You Bring

- Master's Degree in Audiology
- Minimum 2 years of recent post-Master's clinical experience in cochlear implant audiology (including 1 year in an interdisciplinary setting)
- Current registration with the College of Health and Care Professionals of BC
- Advanced Competency Certification in Cochlear Implant Management (CHCPBC)

Note: Candidates who meet core education and registration requirements but lack direct cochlear implant experience may be considered, with training and support provided.

Skills & Abilities

- Strong clinical knowledge of cochlear implantation, assessment, and programming
- Excellent communication, counseling, and collaboration skills
- Ability to manage complex cases, prioritize workload, and work independently
- Teaching skills to support students and learners
- Interest in research, evidence-based practice, and professional development

What We Offer

- **Recruitment Incentive:** This position may be eligible for a one-time recruitment incentive of up to \$15,000 CAD, subject to funding availability.
- **Moving Expense Coverage:** Moving expense coverage may be available. Candidates relocating from outside of British Columbia may be eligible for up to \$5,000 in relocation assistance, subject to eligibility and funding availability.
- **Competitive hourly rate:** \$42.27–\$52.81 CAD
- **Comprehensive benefits:** Unionized position with pension, benefits, and 50% transit pass discount
- **State-of-the-art facilities:** New St. Paul's Hospital opening in 2027
- **Teaching opportunities:** Mentor UBC Audiology externs and contribute to ENT Resident Academic Rounds
- **Professional growth:** Exposure to advanced implant services, including Auditory Brainstem and Bone Conduction Implants
- Inclusive, mission-driven culture committed to equity, diversity, reconciliation, and compassionate care

How to Apply
