

# Wild Rose Audiology Clinic - Full-Time Audiologist

Wild Rose Audiology Clinic is seeking a passionate, full-time Audiologist to join our thriving, patient-centered practice in Edmonton, Alberta. For over 30 years, we have been providing comprehensive audiological services to all ages (with a strong emphasis on pediatric assessment), aural re-habilitation, and long-term follow-up care.

This opportunity is well suited to both new graduates and experienced clinicians who value clinical excellence, professional autonomy, and collaboration. You will work independently while being supported by a close-knit audiologic team, with access to interdisciplinary communication and shared expertise.

We are proud of our supportive work environment, evidence-based practice, and commitment to ongoing professional growth—so you can focus on what matters most: making a meaningful difference for patients and families.

---

## Our Services

Wild Rose Audiology Clinic offers a full range of diagnostic and rehabilitative audiology services, including:

- Pediatric and adult hearing assessments
  - Otoacoustic emissions (OAEs) and Auditory Processing Disorder (APD) evaluations
  - Hearing aid and DM/RM-HAT system fittings for all ages, including infants
  - Evidence-based verification of amplification using real-ear measurements and prescriptive fitting protocols for all ages
  - Tinnitus assessment and management
  - Patient and family counselling and education
  - Creation of referrals and collaboration with physicians, educators, and other allied health professionals
- 

## Responsibilities

- Perform comprehensive audiological assessments for infants, children, and adults
- Select and administer appropriate test protocols, including detailed case history
- Analyze and interpret pediatric and adult audiological test results
- Communicate results, implications, and rehabilitation options clearly and compassionately
- Select, fit, and verify hearing aids using real-ear measurements
- Prepare detailed clinical reports for referring physicians and other professionals
- Collaborate with interdisciplinary team members and external service providers
- Ensure proper operation and maintenance of audiological equipment
- Maintain accurate clinical documentation within an integrated patient management system
