

Audiologist

 Ontario, Canada

 Competitive Salary, commissions, bonuses, benefits & relocation support

LOVE WHAT YOU DO AGAIN.

Get back to the reason you started: the conversations, the laughter, the shared moments.

Built around exactly that. The device is just the vessel.

WHO WE ARE

Reunion Beltone Hearing was started by a seasoned leadership team determined to build the place they always wished existed. One where clinicians are trusted to do what's right for the patient, full stop, and where culture matters.

We're 35 clinics and growing. That means getting in on the ground floor, growing with us, and being supported by a home-office and regional team whose whole job is to have your back.

WHAT YOU'LL DO

- Provide comprehensive diagnostic assessments for all ages, including adults and pediatrics.
- Interpret results and deliver clear, compassionate counselling and recommendations.
- Fit, verify and validate amplification and assistive listening technology.
- Manage ADP, WSIB, DVA and other third-party funding, documentation and reports.
- Work collaboratively in a patient-first environment with the autonomy to do what's right.
- Build lasting relationships in your community through trust, service and results.

WHAT WE WON'T ASK

Read from a sales script.

Chase a number that betrays the reason you got into this.

That isn't us, and it never will be.

WHAT YOU GET

- Competitive Salary, commissions, plus performance bonuses.
- Extended health and dental benefits.
- Paid tuition, ongoing training and real mentorship.
- Paid relocation and signing bonus.
- Paid time off and on-site parking.
- A home-office and regional team that has your back.
- A genuine path to leadership as we continue to grow.

WHO WE'RE LOOKING FOR

Audiologists who are passionate about patient-first care and ready for more autonomy and support.

Registered, or eligible to be registered, as an Audiologist with the College of Audiologists and Speech-Language Pathologists of Ontario (CASLPO).

OUR CAUSE

We're building the best place to work in hearing care so our people can help patients rediscover the moments that matter most.

REDISCOVER WHY YOU ENTERED HEARING CARE.
