AUDIOLOGIST · FULL-TIME · PERMANENT

Audiologist

Brampton Hearing Aid SERVICES

Come work somewhere patients become people you actually know.

About BHAS

BHAS is an independently owned clinic where clinicians make clinical decisions and long-term patient relationships matter. Our experienced clinicians, administrative staff and clinical support team work collaboratively in a new clinic with four treatment rooms and two sound booths.

The people you'll help

Our care starts by understanding what matters to each patient — hearing grandchildren, joining conversations, participating at work, church, the theatre and in everyday life — then helping them find a solution that genuinely improves it.

You might be our person if...

- Warm, patient and genuinely interested in people
- Clinically thorough and confident without being pushy
- Reliable, organized and attentive to detail
- Collaborative, adaptable and open to coaching
- Willing to take ownership when things go wrong

THE ROLE

$80,000–$110,000

based on experience

18 Kensington Road, Suite 101, Brampton
Monday to Friday
Start: As soon as available

What you'll do

Manage your own patient caseload while working closely with the clinical and administrative teams.

- Adult hearing assessments, otoscopy and appropriate testing
- Explain results clearly to patients and families
- Hearing-aid evaluations, recommendations, fittings and programming
- Real Ear Measurement and verification
- Follow-up, fine-tuning, counselling, rehabilitation and troubleshooting
- Cerumen management within scope of practice
- ADP applications, claims, WSIB and third-party funding paperwork
- Accurate clinical records, follow-ups and outstanding clinical tasks

What you'll need

You must be eligible to practise in Ontario as a registered Audiologist. Private-practice and hearing-aid-dispensing experience are assets, but we're more interested in the right clinician than every preferred qualification.

Ready to apply?

If this sounds like your kind of clinic, please apply even if you don't meet every preferred qualification. Send your resume and a short introduction explaining who you are and why BHAS caught your attention.

We'd love to meet you.
